

*The Oligarch of the Deep watched with satisfaction as the Doors finally opened. The conquest of Perim and the seizing of the Cothica was now imminent. The Chieftains moved forward, mentally controlling many who dared to oppose them. Dominated UnderWorlders faced former friends as the Lava Pond became the first of many stable footholds for the M'arrillians in Perim. The four Tribes struggled to mount opposition, only to learn that the worst was yet to come. Thus began the M'arrillian Invasion...*

## M'arrillian Invasion™ M'arrillian Invasion : Beyond the Doors™

### Frafdo the Hero

#### Creature

Invaders have arrived in Perim forcing the other Tribes to defend themselves. Frafdo, an OverWorld archer, is one of the Creatures who has truly grown under the harsh circumstances. Even when alone and faced with fierce adversity, Frafdo shines!

### Mind Grind

#### Attack

The Chieftains of the Deep Ocean have introduced a nasty new way of defeating the opposition in Chaotic, and an Attack like Mind Grind does just that. The Attack presents a correlation between damage dealt and the Wisdom of the target, which plays very well with the tactics of the Deep.

### Aerodrone

#### Battlegear

The Aerodrone is a powerful device many players will recognize from the Chaotic animated series. In the game it enables those who have mastered the Element of Air to plan the attacks of their game with greater accuracy.

### Improvisation

#### Magic™

This powerful Magic is played to optimal effect by a player who knows how to time its use perfectly. It benefits those who are able to improvise within the flow of the game - most fitting for this aptly named Magic!

### Open Doors of the Deepmines

#### Location

The opening of the long sealed Doors of the Deepmines is a pivotal moment in Chaotic. The invaders started their onslaught of Perim through these gates, and having them open is of great symbolic value as well as a concrete threat.
